

## SECTION 1: Identification

## 1.1 Product identifier

Product name

#2 PAA Test Reagent

## 1.2 Other means of identification

#2 Peracetic Acid Test Reagent

## 1.3 Recommended use of the chemical and restrictions on use

Analytical Testing Reagent

## 1.4 Supplier's details

Name

Address

890 Lively Blvd., Wood Dale IL 60191

Telephone

Non-Emergency: 630-238-9292

## 1.5 Emergency phone number(s)

**800-424-9300 CHEMTREC®**

## SECTION 2: Hazard identification

## General hazard statement

To the best of our knowledge, this Safety Data Sheet is prepared to comply with US OSHA 29 CFR 1910.1200 and other governmental agencies both domestic and foreign. Hazard and precautionary statements are based on maximum listed concentrations of each hazardous ingredient. Unlisted ingredients are not "hazardous" per the OSHA Hazard Communication Standard (29 CFR 1910.1200) and/or other governmental agencies.

## 2.1 Classification of the substance or mixture

GHS classification in accordance with: (US) OSHA (29 CFR 1910.1200)

- Acute toxicity, oral, Cat. 4
- Skin corrosion/irritation, Cat. 2B
- Eye damage/irritation, Cat. 2A

## 2.2 GHS label elements, including precautionary statements.

## Pictogram

Irritant

## Signal word

Warning

## Hazard statement(s)

H303

H315

H320

May be harmful if swallowed.

Causes skin irritation.

Causes eye irritation.

## Precautionary statement(s)

P264

P270

P280

P301+P312

P301+P330+P331

P304+P340

Wash hands thoroughly after handling.

Do not eat, drink, or smoke when using this product.

Wear protective gloves/protective clothing/eye protection/face protection.

IF SWALLOWED: Call a POISON CENTER /doctor if you feel unwell.

IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

IF INHALED: Remove person to fresh air and keep comfortable for breathing.

# SAFETY DATA SHEET

## #2 PAA Test Reagent

P305+P351+P338

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing.

P337+P313

If eye irritation persists: Get medical advice/attention.

P332+P313

If skin irritation occurs: Get medical advice/attention.

P362+P364

Take off contaminated clothing and wash it before reuse.

P501

Dispose of contents/container according to state and local regulations

### SECTION 3: Composition/information on ingredients

#### 3.2 Mixtures Components

##### 1. Potassium iodide

Concentration 10 - 20 % (weight)

Other names / synonyms

Kalii iodidum; Potassium iodide (KI)

EC no.

231-659-4

CAS no.

7681-11-0

- Acute toxicity, oral, Cat. 4
- Skin corrosion/irritation, Cat. 2
- Eye damage/irritation, Cat. 2A

H302

Harmful if swallowed.

H315

Causes skin irritation.

H319

Causes serious eye irritation.

### SECTION 4: First-aid measures

#### 4.1 Description of necessary first-aid measures

General advice

Consult a physician. Show this safety data sheet to the doctor in attendance.  
Move out of dangerous area.

If inhaled

Remove person to fresh air and keep comfortable for breathing. Call a poison center or doctor if you feel unwell.  
Acute and delayed symptoms and effects: May cause respiratory irritation.  
Signs/symptoms may include burning pain in the nose and throat, coughing.

In case of skin contact

Take off immediately all contaminated clothing. Rinse skin with water/shower for at least 15 minutes. Call a poison center or doctor if irritation develops or persists. Wash contaminated clothing before reuse.  
Acute and delayed symptoms and effects: Causes skin irritation.  
Signs/symptoms may include localized redness, swelling, itching.

In case of eye contact

Rinse cautiously with water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention/advice.  
Acute and delayed symptoms and effects: Causes eye irritation.  
Signs/symptoms may include redness, swelling, pain, tearing.

If swallowed

Rinse mouth. Do NOT induce vomiting. Immediately call a poison center or doctor. If vomiting occurs naturally, have victim lean forward to reduce the risk of aspiration. Never give anything by mouth to an unconscious person.  
Acute and delayed symptoms and effects: May cause gastrointestinal irritation. Signs/symptoms may include abdominal pain, stomach upset, nausea, vomiting and diarrhea.

#### 4.2 Most important symptoms/effects, acute and delayed.

The most important known symptoms and effects are described in the labelling (see section 2) and/or in section 11.

#### 4.3 Indication of immediate medical attention and special treatment needed, if necessary

Date of Preparation/Revision: 3/2023

p. 2 of 7

# SAFETY DATA SHEET

## #2 PAA Test Reagent

After first aid, get appropriate in-plant, paramedic, or community medical support.

---

### SECTION 5: Fire-fighting measures

#### 5.1 Suitable extinguishing media

Use water spray, alcohol-resistant foam, dry chemical, or carbon dioxide.

#### 5.2 Specific hazards arising from the chemical.

None known other than material can splatter above 100°C/212°F.

Potassium iodate: Hydrogen iodide, Potassium oxides

#### 5.3 Special protective actions for fire-fighters

Avoid any skin contact. Effects of contact or inhalation may be delayed. Fire may produce irritating, corrosive and/or toxic gases. Runoff from fire control or dilution water may be corrosive and/or toxic and cause pollution. Wear positive pressure self-contained breathing apparatus (SCBA). Wear chemical protective clothing that is specifically recommended by the manufacturer. It may provide little or no thermal protection. Structural firefighters' protective clothing provides limited protection in fire situations ONLY; it is not effective in spill situations where direct contact with the substance is possible.

---

### SECTION 6: Accidental release measures

#### 6.1 Personal precautions, protective equipment, and emergency procedures

Wear respiratory protection if necessary. Avoid breathing gas, mist, vapors, or spray. Ensure adequate ventilation. Evacuate personnel to safe areas. For personal protection see section 8.

#### 6.2 Environmental precautions

Do not let product enter drains.

#### 6.3 Methods and materials for containment and cleaning up.

Stop leak if you can do it without risk. Sweep up and shovel into suitable containers for disposal.

#### Reference to other sections

For disposal see section 13.

---

### SECTION 7: Handling and storage

#### 7.1 Precautions for safe handling

Do not swallow. Wash thoroughly after handling. Do not eat, drink, or smoke when using this product. See Section 8 for information on Personal Protective Equipment.

#### 7.2 Conditions for safe storage, including any incompatibilities.

Store away from incompatible materials. See Section 10 for information on Incompatible Materials. Keep out of the reach of children.

#### Specific end use(s)

Apart from the uses mentioned in section 1 no other specific uses are stipulated.

---

### SECTION 8: Exposure controls/personal protection

#### 8.1 Control parameters

##### 1. Potassium iodide (CAS: 7681-11-0 EC: 231-659-4)

PEL: None Est. (OSHA)

TWA (Inhalation): 0.01 mg/m3 (ACGIH)

USA. ACGIH Threshold Limit Values (TLV)/ Upper Respiratory Tract irritation, Hypothyroidism, not classifiable as a human carcinogen.

#### 8.2 Appropriate engineering controls

Use ventilation adequate to keep exposures (airborne levels of dust, fume, vapor, gas, etc.) below recommended exposure limits.

# SAFETY DATA SHEET

## #2 PAA Test Reagent

### 8.3 Individual protection measures, such as personal protective equipment (PPE)

#### Pictograms

#### Eye/face protection

Tightly fitting safety goggles. Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU). Ensure that eyewash stations and/or safety showers are close to the workstation location if working with concentrated product.

#### Skin protection

Wear protective gloves. Consult manufacturer specifications for further information.

#### Body protection

Wear protective clothing. Clothing with full length sleeves and pants should be worn. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

#### Respiratory protection

Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multipurpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

#### Thermal hazards

No data available.

#### Control banding approach

No data available.

#### Environmental exposure controls

Do not let product enter drains.

---

## SECTION 9: Physical and chemical properties

### Information on basic physical and chemical properties

|                                               |                             |
|-----------------------------------------------|-----------------------------|
| Appearance/form (physical state, color, etc.) | Clear color liquid          |
| Odor                                          | Slight odor                 |
| Odor threshold                                | No data available.          |
| pH                                            | <10                         |
| Melting point/freezing point                  | Approx. 32°F                |
| Initial boiling point and boiling range       | 212°F+/-                    |
| Flash point                                   | No data available.          |
| Evaporation rate                              | 1.00                        |
| Flammability (solid, gas)                     | Non-Flammable               |
| Upper/lower flammability limits               | No data available.          |
| Upper/lower explosive limits                  | No data available.          |
| Vapor pressure                                | No data available.          |
| Vapor density                                 | No data available.          |
| Relative density                              | No data available.          |
| Solubility(ies)                               | Completely soluble in water |
| Partition coefficient: n-octanol/water        | No data available.          |
| Auto-ignition temperature                     | No data available.          |
| Decomposition temperature                     | No data available.          |
| Viscosity                                     | No data available.          |
| Explosive properties                          | No data available.          |
| Oxidizing properties                          | No data available.          |

---

## SECTION 10: Stability and reactivity

### 10.1 Reactivity

Date of Preparation/Revision: 3/2023

# SAFETY DATA SHEET

## #2 PAA Test Reagent

Contact with incompatible materials. Sources of ignition. Exposure to heat.

### 10.2 Chemical stability

Stable under normal storage conditions.

### 10.3 Possibility of hazardous reactions

No data available.

### 10.4 Conditions to avoid.

Excessive temperature, contact with any type of reactive chemicals.

### 10.5 Incompatible materials

Avoid contact with Strong Alkalis, Oxidizers, or any other type of reactive material.

Potassium iodide: Strong reducing agents, Nickel, Strong acids, and its alloys, Steel (all types and surface treatments), Aluminum, Alkali metals, Brass, Magnesium, Zinc, cadmium, Copper

### 10.6 Hazardous decomposition products

There are no known hazardous decomposition products for this material unless the material is burned in which case undetermined evolution of toxic gases may occur. In the event of fire: see section 5.

---

## SECTION 11: Toxicological information

### Information on toxicological effects

#### Acute toxicity

Likely Routes of Exposure: Eye contact. Skin contact. Inhalation. Ingestion.

Components:

Potassium iodide: LD50 Oral - Mouse - 1,000 mg/kg

Symptoms (including delayed and immediate effects):

Inhalation: May cause respiratory irritation. Signs/symptoms may include burning pain in the nose and throat, coughing.

Ingestion: May cause gastrointestinal irritation. Signs/symptoms may include abdominal pain, stomach upset, nausea, vomiting and diarrhea.

#### Skin corrosion/irritation

Causes skin irritation. Signs/symptoms may include localized redness, swelling, and itching.

#### Serious eye damage/irritation

Causes serious eye irritation. Signs/symptoms may include cloudy appearance of the cornea, chemical burns, severe pain, tearing.

#### Respiratory or skin sensitization

No data available on product.

Components: No data available

#### Germ cell mutagenicity

No data available.

#### Carcinogenicity

This product is or contains a component that is not classifiable as to its carcinogenicity based on its IARC, ACGIH, NTP, or EPA classification.

OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

#### Reproductive toxicity

No data available.

#### Summary of evaluation of the CMR properties

No data available.

#### STOT-single exposure

No data available.

#### STOT-repeated exposure

No data available.

#### Aspiration hazard

Date of Preparation/Revision: 3/2023

# SAFETY DATA SHEET

No data available.

## #2 PAA Test Reagent

### Additional information

No data available.

---

## SECTION 12: Ecological information

### Toxicity

No data available.

Potassium iodide: LC50 - Oncorhynchus mykiss (rainbow trout) - 2,190 mg/l - 96 h

Potassium iodide: EC50 - Daphnia magna (water flea) - 2.7 mg/l - 24 h

### Persistence and degradability

No data available on product

### Bioaccumulative potential

No data available on product

### Mobility in soil

No data available.

### Results of PBT and vPvB assessment

PBT/vPvB assessment not available as chemical safety assessment not required/not conducted.

### Other adverse effects

No data available.

---

## SECTION 13: Disposal considerations

### Disposal of the product

Disposal should be in accordance with applicable Federal, State, and local laws and regulations. Local regulations may be more stringent than State or Federal requirements.

### Disposal of contaminated packaging

Dispose of as unused product.

### Waste treatment

Contact your supplier or a licensed contractor for detailed recommendations. Follow applicable federal, state, and local regulations.

### Sewage disposal

The product should not be allowed to enter drains, water courses or the soil.

### Other disposal recommendations

Triple rinse the empty containers with water before disposal to reconditioned or land fill or garbage.

---

## SECTION 14: Transport information

### DOT (US)

### SECTION 15: Regulatory information

#### 15.1 Safety, health, and environmental regulations specific for the product in question

##### SARA 302 Components

No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

##### SARA 311/312 Hazards

Chronic Health Hazard

##### SARA 313 Components

This material does not contain any chemical components with known CAS numbers that exceed the threshold. (De Minimis) reporting levels established by SARA Title III, Section 313.

##### Toxic Substances Control Act (TSCA) Inventory

All components of this product are in compliance with the inventory listing requirements of the U.S. Toxic Substances Control Act (TSCA) Chemical Substance Inventory

**Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA):** This material, as supplied, does not contain one or more substances regulated as a hazardous substance under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302) RQ: Not listed.

##### Pennsylvania Right To Know Components

Potassium iodide: CAS number: 7681-11-0

##### New Jersey Right To Know Components

Potassium iodide: CAS number: 7681-11-0

##### Massachusetts Right To Know Components

No components are subject to the Massachusetts Right to Know Act.

##### California Prop. 65 Components

This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.

#### HMIS Rating

| #2 PAA Test Reagent |   |
|---------------------|---|
| HEALTH              | 1 |
| FLAMMABILITY        | 0 |
| PHYSICAL HAZARD     | 0 |
| PERSONAL PROTECTION | B |

#### NFPA Rating

### SECTION 16: Other information

#### 16.1 Further information/disclaimer

DISCLAIMER: The information above is believed to be accurate and represents the best information currently available to us. However, we make no warranty of merchantability or any other warranty, express or implied, with respect to such information, and we assume no liability resulting from its use. Users should make their own investigation to determine the suitability of information for their purposes. In no event shall manufacturer be liable for any claims, losses, or damages of any third party or for lost profits or any special, indirect, incidental, consequential, or exemplary damages, whatsoever arising, even if manufacturer has been advised of the possibility of such damages.
