SAFETY DATA SHEET

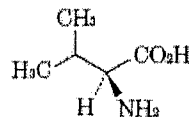

L-VALINE

1. Substance / preparation and company name

Product : L-Valine Feed Grade
Manufacturer : CJ (SHENYANG) BIOTECH CO., LTD.
#38 Yunong Road, Shenbei New District, Shenyang, Liaoning,
CHINA.
Emergency Phone : (024) 31410001

2. Composition / information on ingredients

Composition : L-Valine 96.5% min. (on an as is basis)
98.0 % min. (on a dry matter basis)
Chemical Family : Amino Acid (Essential)
Formula : $C_5H_{11}NO_2$
Molecular Weight : 117.15
Structure Formula :

3. Possible hazard

No extraordinary risks for humans and environment

4. First aid measures

General recommendation : Avoid contact

PLANT : #38 YUNONG ROAD SHENBEI NEW DISTRICT SHENYANG, LIAONING, CHINA
TELP. (024)31410001 FAX. (024)31410108

CJ (SHEN YANG) BIOTECH CO., LTD.

Head Office :

#38 YUNONG ROAD SHENBEI NEW DISTRICT
SHENYANG, LIAONING, CHINA

Tel : (024) 31410001

Fax : (024) 31410108

After inhalation : Remove individual to fresh air
After skin contact : Wash area thoroughly with soap and water
After eye contact : Wash eye with water for 15 minutes
After swallowing : Drink large amounts of water

5. Fire fighting measures

Flash point : 284°C
Auto ignition Temperature : N/A
Flammable limit in air : None Flammable
Extinguishing Media : Water
Special Fire Fighting Procedure : Should wear protective clothing and respiratory protection
Unusual Fire and Explosion Hazard: Not a fire hazard

6. Accidental release measures

Method of cleaning up : Wash area with water. Avoid high pressure rinsing

7. Handling & storage

Handling : Recommended to wear glove and face mask if excessive handling is necessary
Storage : Recommended to be stored in clean and dry condition, under ambient temperature, sheltered from sunlight and avoid from harmful substances
Work place : Keep clean.

8. Exposure control and personal protection

Precautionary measures : Give adequate ventilation to the premises where the product is stored and/or handled.
Respiratory protection : Not needed for normal use.

PLANT : #38 YUNONG ROAD SHENBEI NEW DISTRICT SHENYANG, LIAONING, CHINA
TELP. (024)31410001 FAX. (024)31410108

CJ (SHEN YANG) BIOTECH CO., LTD.

Head Office :

#38 YUNONG ROAD SHENBEI NEW DISTRICT

SHENYANG, LIAONING, CHINA

Tel. : (024) 31410001

Fax. : (024) 31410108

Protection or hands : Not needed for normal use.
Eye protection : Not needed for normal use.
Protection for skin : No special precaution must be adopted for normal use.

9. Physical and chemical properties

Bulk Density : 0.400 ~ 0.600 g/ml
Appearance and Odor : Whitish to Yellowish powder
Solubility in Water : 5.3g ~ 5.7g/100g water (20°C)
Percent Volatile : N/A
Evaporation Rate : N/A
Melting point : 298°C

10. Stability and reactivity

Stability : Stable if stored in dry conditions in sealed or closed containers
Conditions to avoid : Heating to decomposition, Light
Substances to avoid : Strong oxidizers
Hazardous reaction : None

11. Toxicology

Eyes : May cause slight eye irritation
Skin : May cause slight skin irritation

12. Ecology

Degradability : High bio degradable
Bio accumulation : No
Toxicology : Not toxic for wild animals and plants

PLANT : #38 YUNONG ROAD SHENBEI NEW DISTRICT SHENYANG, LIAONING, CHINA
TELP. (024)31410001 FAX. (024)31410108

CJ (SHEN YANG) BIOTECH CO., LTD.

Head Office:

#38 YUNONG ROAD SHENBEI NEW DISTRICT

SHENYANG, LIAONING, CHINA

Tel.: (024) 31410001

Fax: (024) 31410108

13. Eliminations and considerations

Recover if possible. In so doing, comply with the local and national regulations currently in force

14. Transports information

Proper delivering name : L - Valine
Proper delivering condition : Stored in closed and sealed container
Means of transportation : Sea : By ship
Air : By aeroplane
Packaging : 15 kg net with 3 ply Kraft paper bag and 1 ply PE

15. Regulatory information

Not hazardous according to Directive 67/548/EEC.

88/379/EEC (Classification and Labelling):

The preparation should not be considered as dangerous accordingly to dir. 88/379/EEC.

Where applicable, refer to the following regulatory provisions:

Directive 82/501/EEC (Activities linked to risks of serious accidents) and subsequent amendments.

16. Other information

The information contained herein is based on our state of knowledge at the above-specified date. It refers solely to the product indicated and constitutes no guarantee of particular quality. It is the duty of the user to ensure that this information is appropriate and complete with respect to the specific use intended. This SDS cancels and replaces any preceding release.

L-Valine Feed Grade

Description

BestAmino™ L-Valine is a high quality feed grade amino acid produced by microbial fermentation. Its availability depends on the region. Please contact our local representative for more information.

Appearance

Whitish crystalline powder

Chemical properties

Chemical formula	C ₅ H ₁₁ NO ₂
Molecular weight	117.15
Isomer	L

Chemical Specification

L- Valine, % ¹⁾	Min. 96.5	(on an as is basis)
	Min. 98.0	(on a dry matter basis)
Moisture, %	Max. 1.5	105°C for 4 hours

1) HPLC analysis AQAC 999.13

Nutritional Values ²⁾

Crude Protein ³⁾ , %	72.1
Digestibility, %	100
Energy	[MJ]/kg
ME poultry	22.00
DE pigs	24.40
ME pigs	22.90
NE pigs	17.70

2) Average analytical values

3) Nitrogen Analysis acc. to DUMAS (CP=N*6.25)

Packaging

15 kg 3 ply Kraft paper bag with 1 ply P.E. inner
800 kg P.P. Woven bag with P.E. lamination

Storage

Store in dry condition and fresh place in a sealed or closed container that is to be protected from water, sunlight and heat. Avoid direct contact with floor and any source of combustion.

Stability

Product is stable for at least 2 years if stored under recommended conditions.

Kraft paper bag unopened: product is stable for at least 2 years if stored under recommended conditions.

PP Woven bag unopened: product is stable for at least 2 years if stored under recommended conditions.

The batch number and the production date are printed on the bags.

Regulatory Status

L-Valine comes under Regulation (EC) 1831/2003 referring to additives intended for animal feed (Official Journal of the EU n° L120 of 15/5/2009, category "nutritional additives", additives group: "amino acids, their salts and analogues" and can be used for all animal species.

Please refer to the Material Safety Data Sheet of the product for safety information

Additional information

Does not constitute any commercial guarantee

General specifications

pH	5.0-6.0	Aqueous solution at 5%
Bulk density, g/ml	0.4-0.6

Pork & Ractopamine Free Declaration

Shenyang, Mar 16, 2016

To Whom It May Concern:

We, CJ(SHENYANG)BIOTECH CO.,LTD, as the manufacturer of

1. L-Threonine
2. L- valine

hereby declare the following related to pork origin issue.

Our products are derived from vegetable sources, do not contain any animal meat, flesh and is not derived from animal raw material. Specifically pork meat or any material derived from pork origin such as peptone, serum, gelatin or enzyme is not used during manufacturing process of the products.

In case of ractopamine, ractopamine is a feed additive to promote leanness in animals raised for their meat. Pharmacologically, it is a beta-adrenergic agonist and it is commonly used as the active ingredient in products for swine and cattle. Due to we do not use any animal material origin, therefore it means that we do not also use ractopamine in manufacturing process of the products

In conclusion, to the best of our knowledge, our products are free from the pork and ractopamine.

CJ(SHENYANG)BIOTECH CO.,LTD

A circular stamp with the company name 'CJ(SHENYANG)BIOTECH CO.,LTD' around the perimeter. In the center, the name 'DEUG HOI KIM' is printed in a bold, sans-serif font, with the title 'Quality Assurance Manager' written below it.
