**Eyes** Hazardous in case of eye contact (irritant). Prolonged contact with eye tissue may cause severe and permanent eye injury.

**Inhalation** Hazardous in case of inhalation (irritant). Liquid or spray mist may produce tissue damage particularly on mucous membranes of eyes, mouth and respiratory tract.

**Ingestion** No data on acute toxicity of the product when ingested.

#### Chronic Effects

There is no known effect from chronic exposure to this product.

**Additional information :** See Toxicological Information (section 11)

### Section 4. First Aid Measures

**Flammable Limits** Not determined.

**Flammability** Non combustible

**Auto-ignition Temperature**

**Fire-Fighting Procedures** Wear special protective clothing and positive pressure, self-contained breathing apparatus.

**Fire Hazard** Substance releases oxygen when heated, which may increase the severity of an existing fire. Cool closed containers exposed to fire with water.

**Products of Combustion** Exposure to heat and exposure to sunlight accelerates decomposition.

**Explosion hazard**

**Section 6. Accidental Release Measures**

**Spill Clean up** Put on appropriate personal protective equipment (see Section 8). Dilute with water and mop up, or absorb with an inert dry material and place in an appropriate waste disposal container.
